## CYCLE COURIER SERVICE

Printing Services are taking part in the SRS Sustainability Awards again this year and our Gold Award Project is to trial a new cycle courier service for deliveries between Kings Buildings Copy Centre and The Royal Infirmary. This is ideal for urgent deliveries and we are hoping this will replace the use of van couriers, taxis and personal cars for picking up and delivering urgent work. We are hoping the trial will be successful and we aim to introduce this as a regular service. This is a sustainable, environmentally friendly delivery option and could save a considerable amount of CO2 emissions if used to replace personal car and commercial van pickups and deliveries.

We are working with a small local business to provide this service to our customers. We hope that other areas around the University may be interested in using cycle couriers too. If you are interested in finding out more about cycle couriers please contact [Printing@ed.ac.uk](mailto:Printing@ed.ac.uk).
